

Read all about it

Year 9 pupils have been studying Shakespeare – Romeo and Juliet. They can recite Shakespearean insults and have choreographed a fight scene between the Montague and Capulet servants.

Year 10 pupils are studying George Orwell's 'Animal Farm' as one of their GCSE English Controlled Assessment tasks.

Year 11 pupils have been learning to identify the purposes of texts.

For example to instruct, to describe.

Religious Studies

On the 5th March 4LC visited St Peter's Church in Weston Favell as part of their Religious Education and RE studies. The students had the opportunity to ask members of the lay clergy questions about their religion and discussed in depth Christian festivals and values. The highlight of the visit was a tour of the Church where students learnt fascinating information about its history (a place of worship has been on the site for over a thousand years!) The trip was a great success, all students are to be congratulated for their fantastic conduct and for the enthusiasm they showed towards learning.

Year 7 and 8 have been looking at the wonderful work the Salvation Army do, and how it all began. We were very lucky to receive a visit from some members of the Salvation Army, who kindly told us about how the Salvation help those in need, along with stories from when they have helped those in

other countries, following natural disasters. The students wanted to know how we can help. We have decided that we can help by donating any books in good condition, working toys and unwanted gifts to the charity shop. If you are able to help us, please send these into school. Thank you in advance for your support.

Out and About

On Thursday 15th January the whole Satellite visited the Natural History Museum in Oxford.

We were all impressed with the exhibits and with the building itself. All of the pupils took part in handling sessions, whilst the very bravest agreed to

hold live cockroaches – I think that most of them have made a full recovery (the pupils, not the cockroaches!) Pupils were also able to view artefacts in the adjoining Pitt Rivers Museum.

The feedback was extremely positive, and has changed a few misconceptions about museums one would hope.
